FCZ_A

Programming via smart devices using Therm App

Electronic T-Touch controller

FCZ_U

- **EXTREMELY SILENT OPERATION**
- **ADVANCED CONTROLLER ALLOWING PROGRAMMING VIA SMART DEVICES**
- **DUALJET VERSION FOR HIGHEST FOUR-SEASON COMFORT**

Features

Drawing from its wide experience in the field of fan coils, Aermec presents the new FCZ series: elegant design goes hand in hand with low noise and notable energy savings. FCZ can be installed in any 2/4 pipe system and operates with any heat generator even at low temperatures. Thanks to numerous configurations and models Aermec offers the ideal solution for any need.

Versions

Without installed controller,

Vertical or horizontal installation:

FCZ_U
FCZ_UA

Vertical installation:

FCZ_DS
FCZ_AS

With installed controller

Vertical installation:

FCZ_D
FCZ_A
FCZ_ACT
FCZ_APC

- housing RAL9003, grille/feet RAL 7047
- 3-speed fan.
- Electric motors with permanently inserted condensers
- Metallic protective cabinet with rustproofing polyester paint
- Adjustable air distribution grille (U version)
- Automatic power-off function with closure of the air delivery grille, (U version)
- Low pressure drop coil
- Easy installation and maintenance
- **G2** air filter for all versions. **APC versions equipped with Plasmacluster purifier**
- Extractable shrouds for easy, effective cleaning
- The hydraulic connections can be inverted

during installation (only valid for units with a single coil, those with a supplementary coil cannot be inverted).

- **The ThermApp application (applicable with T-TOUCH controller) operates by simply placing a smart device on the fan coil. The App allows working mode and time schedule programming, sleep mode activation, alarm listing, etc. ThermApp is available for Android Operating Systems.**

Configurations available

With fixed grille (vertical free-standing) - A

- **FCZ_A**
- With switch
- **FCZ_AS**
- Without installed controller
- Compatible with VMF system
- **FCZ_ACT**
- With electronic controller (for 2 pipe systems)
- **FCZ_APC** 
- With electronic controller (for 2 pipe systems)
- with Plasmacluster purifier

Vertical installation only
- For 2/4 pipe systems

With adjustable/fixed grille (Universal) - U

With adjustable air distribution grille - U

- **FCZ_U**
- Without installed controller
- Compatible with VMF system
- Adjustable grille
 Single for size 1-2-3
 Three independent for sizes 4-5-6-7-8
With the flap completely closed the unit is off

Vertical or horizontal installation
- For 2/4 pipe systems

With double flow (Dualjet) - D

Dualjet, unique to Aermec, offers notably improved seasonal comfort by directing the air flow according to the season. In winter warm air is directed towards the floor; in summer cool air is directed towards the ceiling.

- **FCZ_D** With installed controller
- **FCZ_DS** Without installed controller

FCZ_DS units are compatible with the T-TOUCH controller and VMF system, (contact Aermec for further details)
- The air supply orientation (frontal or top) is adjusted by acting directly on the grille.

Vertical installation only
- For 2 pipe system (4 pipe system with VCF_X4, VMF system or T-TOUCH)

With fixed air distribution grille - UA

- **FCZ_UA**
- Without installed controller
- Compatible with VMF system
- Fixed grille

Vertical or horizontal installation
- For 2/4 pipe systems

Unit selection

By appropriately combining the variety of options available, each model can be configured in order to meet all specific system requirements.

Field	Code	7,8	Versions
1,2,3	FCZ		
4	Size		
	1-2-3-4-5-6-7-8-9-10		
5	Main coil		
	0 Standard		D Dualjet with installed controller
	5 Oversized (1)		DS Dualjet without installed controller
6	Supplementary coil		A Free standing with switch
	0 Without coil		AS Free standing without switch
	1 Standard		ACT Free standing with electronic controller
	2 Oversized		APC Free standing, electronic controller and Plasmacluster purifier
			U Universal with adjustable grille, without installed controller
			UA Universal with fixed grille without installed controller

(1) Oversized coil "5" does not allow the installation of the supplementary coil "1 or 2"

Accessories

Control Panel

- T-TOUCH:** Touch controller mounted on-board. allows remote control with (Android) smart devices using the ThermApp application.

A range of dedicated controllers, wall-mounted or on the machine, is available but it is essential to choose between these panels for simple and complete tuning, for more details please refer to the dedicated sheet.

Probes and accessories for control panels

- SW3:** water temperature probe allowing automatic season change on electronic controllers supplied with water-side change over
- SWA:** external probe accessory (length = 6m). The probe detects the temperature of the ambient air if connected to the connector (A) on panel FMT21; the ambient air temperature probe incorporated in the panel is automatically deactivated. Detects the temperature of the water in the system, for ventilation consent, if connected to the connector (W) of the FMT21 panel. Two SWA probes can be simultaneously connected to the panel FMT21.
- SIT 3 - 5:** Thermostat Interface Card allowing the creation of a network of fan coils (max. 10) commanded by a central control panel (selector or thermostat). SIT3: commands the 3 fan speeds and must be installed on each fan coil within the network; receives the commands from the selector or the SIT5 card. SIT5: commands the 3 fan speeds and up to 2 valves (four pipe systems); sends the thermostat's commands to the fan coil network.

VMF system

- VMF-E0:** thermostat accessory to be mounted on the side of the fancoil, equipped with air and water sensors as standard; controls 2 pipe, 4 pipe, 2 pipe + Plasmacluster, 2 pipe + UV lamps, 2 pipe + electrical heater systems. Equipped with external contact to be

used as low voltage remote ON-OFF. This thermostat can create a single fancoil zone through 2-wire serial communication (1 master + maximum 5 slaves). The thermostat is fuse protected.

- VMF-E2Z:** User interface for mounting on the unit with two selectors: one to control the temperature and one for the speed.
- VMF-E4:** Wall mounted user interface allowing control via a capacitive touch keyboard.
- VMF-E5:** Wall recessed panel allowing control of a complete hydronic system via a capacitive touch keyboard.
- VMF-E1:** Thermostat for serial communication.
- VMF-SW:** Water sensor replacing that supplied with VMF-E1 thermostats for installation upstream of the valve.
- VMF-SW1:** Additional water sensor for 4-pipe systems with E1 thermostats offering maximum control in the cooling range.

Hot water coil

- BV:** Single row hot water heat exchanger. Not available for versions with Plasmacluster.

Electrical heater

- RX:** Armoured electrical coil with safety thermostat (requires a thermostat with heater management). Not available for 4-row or Plasmacluster versions

Valve kit

- VCZ X4:** Valve kits for single coil units, installed in 4 pipe systems with totally separated "Cooling" and "Heating" circuits. The kit consists of 2 valves with 3-way 4 port connection complete with electro-thermal actuators, insulating shells for the valves and associated hydraulic piping. The VCF1X4L valve kit allows left side connection.
- VCZ or VCF:** kit containing a motorised 3-way valve with insulating shell plus coupling and pipes in insulated copper. Applicable for standard or oversized main coil. Available with 230V and 24V~50Hz power supply.

- VCZD or VCFD:** Kit consisting of powered 2-way valve, copper couplings and pipes applicable for standard or oversized main coil. Available with 230V and 24V~50Hz power supply.

- VJP/VJP_M:** Control and balancing combination valve for 2 and 4 pipe systems to install outside the unit, supplied without fittings and hydraulic components. The valve, which can guarantee a constant water flow rate in the terminal, within its operating range, is available with 230V and 24V~50Hz power supply.

The VJP is controlled by on-off logic with compatible control panels (accessories)

The VJP_M is controlled by modulating logic with panels not supplied by Aermec

The design water flow rate is crucial to refine the selection of the valve shown in the compatibility table.

Installation accessoires

- AMP:** Wall mounting kit.
- DSC4:** Condensate drainage device applied where natural run-off is not possible.
- GA:** Grille to hide hydraulics and electrics on ceiling mounted units; also applicable for floor installation.
- PCZ:** Sheet metal panel to close rear of unit
- ZXZ:** Mounting feet (set of 2).

Refer to dedicated product Leaflet for further details concerning control panel and VMF System.
